

Dear Parents,

On Sunday 4th April at 11:45am the special service to welcome children to take their first communion with us will also have space for baptisms. If you wish your child to be baptized at that service we will be delighted to welcome them and baptize them. They will then take their first communion with other children who are already baptized.

Education about Holy Communion is very valuable for children and in no way does it automatically lead to taking communion if you as a parent would prefer your child to wait until they are older. If for any reason you prefer not to have your child baptized or take first communion we will completely understand and uphold your decision.

Please do note that we do need to see your child's baptism certificate if they are going to take their communion.

From all the teachers and coordinators
Primary Sunday School and Junior Church
